

PALLET

.....
Redefining Space Division

WADDELL®

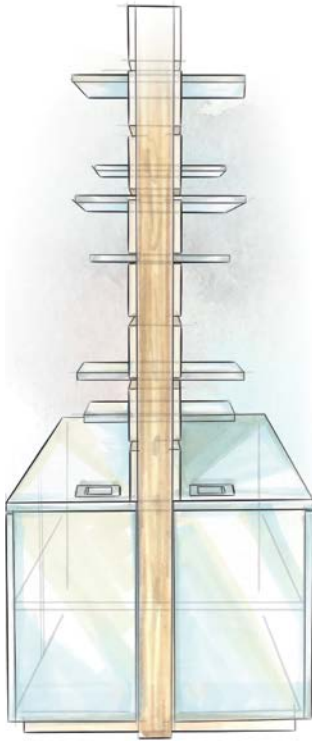

a GMI company.

BRING CREATIVITY TO YOUR ENVIRONMENT

Designed to fit the needs of today's open plan workspaces that are mobile, collaborative, and configurable; Pallet provides space delineation while allowing environments to feel open and airy. In addition to being a beautiful way to divide space, Pallet allows users to create collaborative work environments for meetings, brainstorming sessions, or even impromptu workstations with optional accessories. The uses for Pallet are limitless; simply place a work table alongside Pallet's single-sided unit to create a workstation, add a whiteboard to develop brainstorming activities, and showcase your company's brand and style by placing contents on the shelves.
